Supplement and Price List to Our General Catalogue

Four Times Transplanted

Three Times Transplanted

Twice Transplanted

Photo-engraving of three Hemlock Spruce, each 3 feet high, with ball of earth shaken out to show results of frequent transplanting. Note the increased mass of fibrous roots, also increase of fatness of tops

All our stock both deciduous, and evergreen trees and shrubs, is frequently transplanted. Our Maples, Lindens, Poplars, Dogwood, etc., show the same masses of fibrous roots as Hemlocks above. In digging, great care is used to preserve the roots intact. We do not use a tree-digging machine. Moreover, our stock is not dug in autumn and stored in cellars, but dug fresh from the ground at time of packing the order. Evergreens are balled and burlaped without extra charge, and no charge is made for boxing and packing. Our price is low when you consider the quality and the liberal discounts we offer. Of 600 evergreens sent by freight to Pennsylvania, Spring, 1909, (Arborvitae, 2 to 3 feet high, not balled or burlaped), our customer writes: "Practically all the Arborvitae purchased from you grew. We lost about 600 out of 650 purchased elsewhere."

This man not only lost trees and labor, but also a year's time, of more value than the trees. Where do you suppose he will buy next time?

Irish Roses

Several years' thorough trial of these Roses has convinced us of their superiority. The fact that we supply many of the best rosarians in the country, who express themselves as highly pleased, is ample proof of the quality of Irish stock.

Their success has been phenomenal. In open competition they won the King's cup at Windsor, The Metropolitan Challenge Trophy (The blue ribbon of the Rose World), the silver cup of Holland Park, London, and, for the fourth year in succession, the Wand Challenge cup at Saltaire, thereby it becomes the absolute property of Dickson and Sons.

The Dicksons grow this fancy stock to our order, and we offer only such varieties as have proven a success in this country. There are other varieties which promised much, and many more which are successful in mild climates, but the number of first-class, hardy sorts is limited to a comparative few. Some of these do well in one section and some in another.

Of the nearly 200 varieties we offer, all are heavy two-year dormant plants and a few Rugosas and Climbers are both two and three years old.

Planted early the roots become well established in the cool weather of April and May so that they are able to produce a fine lot of blooms in June, and the Everblooming Teas and Hybrid Teas continue to bloom through summer and fall until heavy frosts. Place your order now, we will not ship until conditions are suitable for planting in your section.

Two Reasons for Placing Your Order Early

(1) To make sure of getting the desired varieties before the stock is exhausted, many of our old customers placed their spring orders six to eight months in advance.

(2) Early orders take precedence in time of shipment, provided, of course, ground in your locality is ready for planting; plant just as soon as ground will work well.

For full list with descriptions and for cultural directions see our 64-page illustrated catalogue, which devotes twelve pages to this Queen of Flowers.

Prices of Roses

All Roses offered in our General Catalogue, including Climbers, Rugosas, Sweetbriars, Hybrid Perpetuals, Hybrid Teas, etc., with few exceptions, will be furnished at 40 cts. each, \$4.00 per doz., \$30 per 100, extra selected. On all Roses prices are: 6 at dozen rates, 50 at 100 rates, provided not less than three of a kind are ordered. No charge for boxes or packing.

These prices are not for home-grown or Holland stock. Irish Roses are as much superior to ordinary stock as superior soil and climate and 50 years' training in Rose-growing can produce. To produce such stock, strong one-year plants are set in spring and grown two years in the field; quite different from plants started in the greenhouse in winter, planted out in spring and sold the following spring for two-year-old plants. The fact that we send these Irish Roses to nearly all the large estates at Lenox and Newport, where the gardeners are known to be as well

up in their profession as any in the country, is proof positive of the quality of our stock.

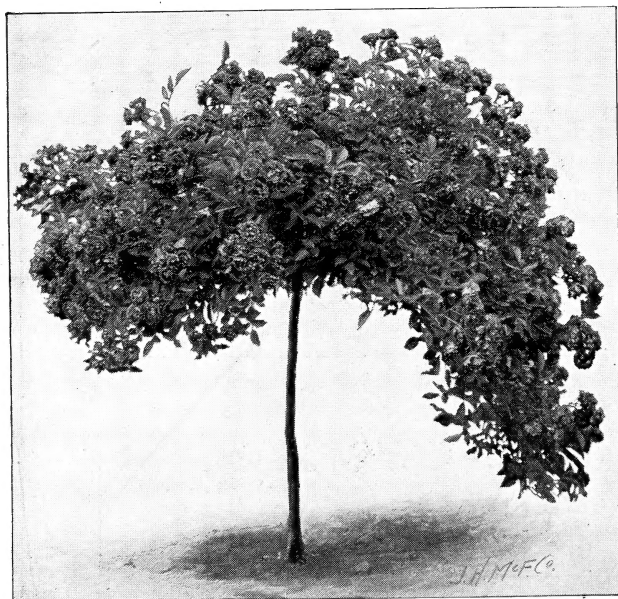

There were reasons for the very high recommendation shown by excerpts from letters of some of our customers on page 3.

(1) The plants were grown by Rose-growers of over fifty years' experience, in the north of Ireland, where soil and climate conspire to produce plants of great vigor, strong roots and well-ripened wood.

(2) The plants were very low-budded, so that in planting the bud or graft is easily placed 2 or 3 inches below the surface of the ground (as it should be) without the necessity of too deep planting of the roots.

(3) The plants are kept perfectly dormant from the time they are dug until they reach our customers. On arrival, late in November, we place them in deep trenches and cover with earth until shipping time. By this method there is no drying out of the roots, as there is where stored in buildings.

(4) Our method of packing insures arrival in perfect condition.

TREE ROSE

Standard Roses

We offer a grand collection of Rose Trees on Rugosa stock in the best varieties of Hybrid Teas and Hybrid Perpetuals. XX size, 3 to 5 plants, \$1.50 each; 6 or more plants, \$1.25 each. X size, 3 to 5 plants, \$1.25 each; 6 or more, \$1.00 each.

We also have a splendid stock of Standard Crimson Rambler, Lady Gay, Baby Rambler and Dorothy Perkins on Rugosa stock at the following prices, namely: **Crimson Rambler**, 2-yr., 75 cts.; 3-yr., \$1.50; 4-yr., \$2.50. **Dorothy Perkins**, 2-yr., \$1; 3-yr., \$2. **Baby Rambler**, 2-yr., \$1; 3-yr., \$1.50; **Lady Gay**, 3-yr., \$2.

Frau Karl Druschki, 14 months from planting, showing 20 buds at one time.

Twenty-Five Choice Everblooming Roses—Hybrid Teas—\$10

We are pleased to offer the following thoroughly tested varieties of Roses, which bloom from June to November. Many of them are well-known favorites. The newer varieties have proved most satisfactory in many parts of the country during the past two or three years.

Alice Grahame	Caroline Testout	Grace Darling	La France	Madam Jules Grolez
Antoine Rivolre	Corallina.	Gruss an Teplitz	Liberty	Madam Bavary
Betty	Dean Hole	Helen Gould (Baldwin)	Mme. Abel Chatenay	Mrs. Robert Garrett
Bessie Brown	Gladys Harkness	Killarney	Mildred Grant	Souv. du Pres. Carnot
Captain Christy	Kaiserin Augusta	Lady Battersea	Malmaison (Bourbon)	Viscountess Folkestone

The Best Twelve Hardy Garden Roses

The following varieties, all things considered, are fully equal to any twelve of their class (H. P.) Some rosarians would doubtless prefer other varieties for some of them. We have placed the names of a few in parentheses, which may be substituted if the purchaser prefers. For description of these Roses and others, including Sweetbriers, Rugosas, Climbers, etc., see our General Catalogue. Any 12 for \$4.50; the 24, \$8.50.

Baroness Rothschild (Luizet)	Helen Keller (Jacqueminot)
Clio (Prince Camille de Rohan)	Fisher Holmes (Jean Liabaud)
Earl of Dufferin (Louis Van Houtte)	Marshall P. Wilder (Tom Wood)
Margaret Dickson (Magna Charta)	Mrs. R. G. S. Crawford (Paul Neyron)
Francois Michelin (Rodocanachi)	Mrs. John Laing (Queen of Queens)
Frau Karl Druschki (St. Amande)	Ulrich Brunner (Soleil d'Or)

Excerpt from a Few Letters which Shows the Enthusiasm of our Customers.

"I was talking over roses with Mr. —, and we both came to the conclusion, after trying roses from many of the prominent growers, that yours were the best."

"Mr. — is planning an addition to his rose garden and thought of sending to several firms for their best roses, but I told him he would do much better to send you the whole order."

"The roses that I received from you last spring did unusually well and proved to be true to name for every variety that I received, which was indeed very satisfactory, as I received from other sources a consignment of roses which were anything but the name of the roses which I ordered."

"Please ship the enclosed order for roses early in April. I wish to say that the last shipment of roses from you was of the best quality I have ever received from any source."

KILLARNEY

Dahlias

Special Selection for Cut Flowers

Cactus varieties except as noted.

This list includes the cream of hundreds of varieties to date with the exception of a few very high priced varieties. Dormant roots only.

Culture

Select a well-drained location in full sun. Dig soil deep, use well rotted stable manure or bone meal and sheep manure. If soil is stiff clay, add coarse sand, coal ashes or anything that will render the soil loose and pliable.

Alba Superba (Single)—Fine large white with a dash of canary yellow at base of petals. 15c each; \$1.50 per dozen.

Aegir—Rich, warm cardinal-red, with peculiarly twisted petals. 25c each; \$2.50 per dozen.

Amos Perry—Flowers very large, with long, tubular petals. Color firey-red; one of the earliest and freest flowering. 25c each; \$2.50 per dozen.

Brumhilda—A rich deep plum; fine form. 15c each; \$1.50 per dozen.

Black Beauty (Decorative)—Deep velvety maroon, almost black. A fine flower. 15c each; \$1.50 per dozen.

Catherine Duer (Decorative)—Iridescent geranium red, a favorite at Newport, where it is used most extensively for cutting. 15c each; \$1.50 per dozen.

Clara G. Stredwick—A splendidly formed flower of very large size, color shrimp pink, shading to a salmon-red in center. 15c each; \$1.50 per dozen.

Countess of Lonsdale—A peculiar, but pleasing blending of salmon-pink and amber, a color difficult to describe. This is the Dahlia for the million. Flowers freely under all conditions. 25c each; \$2.50 per dozen.

Effective—Chamois rose with yellow shadings, deeper in the center; a large, perfectly formed, intensely double, globular flower with pointed petals; very distinct; flowers freely. 15c each; \$1.50 per dozen.

Erecta—Of very erect habit of growth; flowers also are erect on stout, stiff stems; color a brilliant amaranth-rose softened with lighter shadings. 35c each; \$1.50 per dozen.

Flora—An ideal white Cactus Dahlia. A large, heavy flower, produced on stout stems, makes it valuable for cutting. 25c each; \$2.50 per dozen.

Floradora—A remarkably free flowering, bright blood red. 25c each; \$2.50 per dozen.

Frute—Peaches and cream describe the color of this beauty; a pleasing soft pink passing to a cream center. 25c each; \$2.50 per dozen.

Gen. Buller—Cardinal red, each petal tipped with white; a fine flower and much admired. 15c each; \$1.50 per dozen.

Gottelinde—Primrose yellow, of fine form. 15c each; \$1.50 per dozen.

Helene—A fine dwarf; very free bedding variety; flowers on stiff stems well above the foliage. Center creamy white, passing to a pleasing mauve rose on the outer petals. 15c each; \$1.50 per dozen.

J. H. Jackson—Brilliant crimson maroon; very free. 25c each; \$2.50 per dozen.

Kriemhilde—The most popular cut-flower variety grown today; perfect flowers grown on long stems; color a brilliant pink, gradually shading to white at the center. 25c each; \$2.50 per dozen.

Mrs. Edward Mawley—A fine clear yellow; very free. 25c each; \$2.50 per dozen.

Mrs. H. J. Jones—Very large, perfect, rich, bright scarlet with cream-colored edge; occasionally comes self-colored. 25c each; \$2.50 per dozen.

Mrs. Roosevelt (Giant)—Delicate silvery rose. 25c each; \$2.50 per dozen.

Prince of Yellows—A rich canary yellow of very large size, with broad petals which are fringed at the tips. It is a strong grower, producing an abundance of blooms of fine quality; the best yellow for cutting. 25c each; \$2.50 per dozen.

Pink Pearl—Mallow pink at the base of the petals, shading off gradually to white at the tips, the effect being a soft, rosy pink; fine for cutting. 15c each; \$1.50 per dozen.

Pius X—A beautiful large white with slight sulphur tint; very double with nicely quilled petals; the finest white Cactus for cutting. 25c each; \$2.50 per dozen.

Shooting Star—Good-sized flowers of regular form, produced on stout stems held well above the foliage. Color pure golden yellow; entirely distinct. 15c each; \$1.50 per dozen.

Sauv Des Gustav Doazon (Giant)—The most sensational Dahlia of the season; a decorative variety of mammoth proportions, which under ordinary cultivation will produce flowers 6 inches across, and can be grown to measure full 9 inches. It is of free growth, remarkably free-flowering, and pure scarlet in color. 25c each; \$2.50 per dozen.

KRIEMHILDE DAHLIA

Country Girl—Base of petals golden yellow suffused with salmon rose, which is deepest at the point; a bright and striking combination of colors which is difficult to describe; the flowers are of large size, with broad, pointed petals; a free and early bloomer. 25c each; \$2.50 per dozen.

Standard Bearer—Rich, fiery scarlet, very free, and of perfect form. 25c each; \$2.50 per dozen.

Strahlen Krone—Intense cardinal-red; rich and glowing. 25c each; \$2.50 per dozen.

Twentieth Century (Single)—Early in the season an intense rosy crimson, shading gradually to almost white on the edges and a light halo around the disc. As the season advances the flowers become lighter, changing to almost pure white suffused with soft pink, not variegated, but blended in the most beautiful manner. 20c each; \$2.00 per dozen.

Victor Von Scheffel—An ideal cut flower, of a soft pink, passing to white in the center; very pleasing. 15c each; \$1.50 per dozen.

Warjag—Orange carmine tipped with bright carmine, making a brilliant iridescent red effect; flowers of good size and very regular form; an early and late bloomer. 50c each; \$5.00 per dozen.

Winsome—A fine white of good size and perfect form. 25c each; \$2.50 per dozen.

IMPORTANT ANNOUNCEMENT

Save 20% on Holland Bulbs by Ordering Before July 1—Shipped Direct to You in Grower's Original Packages

One of our Fields of Peonies. We have three larger ones.

References will be expected from new customers. Catalogue ready May 15.

Visit our magnificent display of Peonies at Rosedale. This famous collection of superb varieties will be at the height of its blooming period during the week commencing June 12.

An Invitation

IRIS, ROSE and PEONY EXHIBIT. While visitors are always welcome to our Nurseries, yet a special invitation is extended to the public to visit us in June. If those interested will write us, we shall be pleased to name the best dates as soon as the season shows itself to be normal or otherwise.

The Nursery is located on the State road, half way between the West Chester County Almshouse at East View, on the Putman Branch, and Hawthorne, on the Harlem Branch of the N. Y. C. R. R., 1 1/4 miles from each station. Carriages meet all trains at Hawthorne, fare 25 cents. About one hour from the Grand Central Station in New York.

To facilitate the handling of our Bulb orders, we announce that hereafter we will **import Bulbs to order only**, and that orders must be in our hands by July 1. These will be shipped to our customers at proper time for planting.

Our object in adopting this new course is to relieve ourselves of the details of recounting and rehandling at a time when the attention of our entire force is needed for the Nursery and Landscape Departments of our business.

The high quality of the bulbs will remain unchanged—the stock will be obtained from the same reliable growers who have supplied us for the past sixteen years.

Japanese Iris (Kaempferi)

Flower 9 to 12 inches in diameter; will grow in almost any soil that does not become too dry in summer. Prefer a warm sunny location. Prices: 20c each, \$2.00 per doz.; \$12.00 per 100. A superb mixture made from these varieties, \$9 per 100. Our river bottom land produces extra fine plants at low cost of production, hence these low prices.

This set of varieties was selected from a large number of the best Japanese introductions and is, without doubt, as fine as any collection offered.

Spring is the time to plant Japanese Iris.

JAPANESE IRIS

- NO.
- 1 **Iso-no-nami**—Silvery white veined violet.
 - 31 **Gekka-no-nami**—Dense, pure white, yellowish blotches, petaloid stigmas; six petals.
 - 37 **Ho-ojo**—Ruddy crimson, primrose blotches, with white halo; petaloid stigmas white tipped with purple; six petals.
 - 43 **Kuma-Funjin**—Purple, overlaid with navy-blue, two standards; petaloid stigmas purple and blue; large orange blotches; six petals.
 - 47 **Komochi-Guma**—Violet, double; several blooming close together at one time; six petals.
 - 53 **Bandai-no-nami**—Clear white, with large radiating yellow blotches; creamy standards; six petals.
 - 56 **Kakujakuro**—Blue with purple, heavily feathered white; yellow blotches; standards blue, edged white; petaloid stigmas white, tipped blue; large flowers.
 - 59 **Osho-kun**—Intense tyrian blue; yellow blotches radiating into white; petaloid stigmas dark violet; six petals.
 - 61 **Blue Jay**—Sky blue, veined white.
 - 62 **Misutmoshito**—Three petals; white mottled with violet purple.
 - 71 **Pyramid**—Light violet blue, slightly veined white.
 - 72 **Uni-no-hotaru**—Bright violet-purple, shaded blue.
 - 91 **Kanran**—White, densely veined with rich violet.
 - 4 **Yomo-no-umi**—The finest double white.
 - 5 **Koki-no-iro**—Light violet with white veins.
 - 13 **Yedo-jiman**—Rich royal purple.
 - 26 **Uchiu**—Bright crimson-purple with few white veins.
 - 35 **Shi-shi-odori**—Rich, royal purple, changing to deep purple.
 - 40 **Kanarinishiki**—Greyish white marbled with violet purple.
 - 47 **Renjo-no-toma**—Light lilac suffused with light violet. out with soft, light blue; the largest three-petaled variety in cultivation.
 - 55 **Shuchiukwa**—Crimson purple with white veins and center.
 - 77 **Yayaura**—White, occasionally marked with light violet.

- 69 **Waku-hotei**—White, veined with violet blue.
- 11 **Hano-no-nishiki**—Violet purple veined with white.
- 14 **Shishi-ikari**—White ground, veined with dark purple.
- 16 **Kumoma-no-sora**—Silvery white, suffused through-

Hardy Perennials

We wish to call special attention to a few bargains in Hardy Perennials. Lack of room prevents a larger list. The reader is referred to our General Catalog which devotes 19 pages to the subject, illustrating many varieties.

Astilbe—This beautiful flower is not only excellent for cutting, but is especially useful for planting near roses and peonies to attract away from them the rose bug. As is well known, this bug, or beetle, is attracted by white flowers, and the masses of white on the Astilbe seem especially enticing to this pest which no insecticide will reach. We offer heavy clumps for immediate effect at 25c each; \$2.50 per dozen. Ordinary size, 15c each; \$1.50 per dozen.

Anchusa Italica—Dropmore variety. One of the best blue flowers, blooming the entire summer on flower stalks 5 to 6 feet high. 25c each; \$2.00 per dozen.

Bambusa Metake—Handsome evergreen species of Bamboo; large, deep green foliage, 6 to 10 feet high; excellent for planting near the water. Heavy clumps, \$1.00; smaller, 50c.

Delphinium—

Belladonna—25c each; \$2.50 per dozen.

Gold Medal Hybrids—15c each; \$1.50 per dozen.

Erskine Park Hybrids—25c each; \$2.50 per dozen.

All other varieties described in our catalog, \$1.50 per dozen; \$12.00 per 100.

"I appreciate your very exceptional method of doing business by being generous, just and always furnishing a grade of goods a little better than you advertise."

"I wish to tell you the tree roses ordered from you last spring have **done splendidly**. They are **today a delight**—some of them **still beautifully blooming**. Neighbors and friends constantly admire them and ask "Where did you get them?"

"Your shipment of roses to us was so satisfactory that we wish to order more, and would like your General Catalogue."

Eulalia Gracillima Univittata—This beautiful Japanese rush is not half as well known as it should be. Because of its narrow foliage, this is one of the most graceful of the hardy grasses. Color bright green with silvery midrib. Our enthusiasm for its beauty has led us to provide a large stock of it,—hence the low price. Strong plants, 15c each; \$1.50 per dozen. Heavy plants, 25c each; \$2.50 per dozen. Large clumps, over a foot in diameter, 50c.

Iris, German—We offer a grand lot of plants which were transplanted Spring of 1910 from the choice varieties listed in our General Catalog; heavy plants at \$1.50 per dozen; \$10.00 per 100. A fine mixture made up from these at \$1.00 per dozen; \$6.00 per 100.

Hemerocallis, Yellow Day Lily—The old-fashioned lilies vigorous in growth and free in bloom, will give more flowers for a little care than will any other. The variety **Flava** is the one often seen in the old gardens and is the earliest to bloom. Following is the rich, buttercup yellow variety, **Thunbergii**, which blooms in July and August when yellow flowers are very scarce. Excellent for cutting. 15c each; \$1.50 per dozen.

Hardy Perennials

FOR DESCRIPTIONS SEE PAGES 40 TO 58
OF OUR LARGE, ILLUSTRATED CATALOGUE

We have greatly increased our facilities for supplying the old-fashioned flowers, including improved new hybrids and many varieties, especially adapted to the Alpine and rock-garden. We offer strong plants which will bloom next summer.

Six at dozen rates, 50 at 100 rates (which is \$10 per 100 for those priced at \$1.50 per doz.), provided not less than five of a kind are ordered. No charge for boxing and packing orders amounting to \$5 or more.

State of New York Department of Agriculture

Certificate of Inspection of Nursery Stock—

This is to certify that the stock in the nursery of S. G. HARRIS, of Tarrytown, County of Westchester, State of New York, was duly examined in compliance with the provisions of section 305 of the Agricultural Law, and it was found to be apparently free from any contagious or infectious disease or diseases, or the San Jose Scale or other dangerously injurious insect pest or pests.

This certificate expires Sept. 1, 1911.
Dated Albany, N. Y., Sept. 20, 1910.

R. A. PEARSON,
Com. of Agriculture.

Prices and Discounts

The prices of trees and shrubs which follow, include boxing and packing. The reason the price of the single plant seems higher in proportion is that the cost of packing a single plant is often as much as for several. On wholesale orders for 10 or more of a kind and size, therefore, we

are prepared to make a liberal discount as follows: 10 to 50 plants of one kind and size 20 per cent, 50 to 250 plants of one kind and size 25 per cent, from the single rates where the price per 10 and per 100 is not given.

On orders for assorted lots of one to ten of each kind and size, we will give the following discounts from the rate of each, namely: Order amounting to \$10 to \$20.5 per cent discount; \$20 to \$50, 10 per cent; \$50 to \$100, 15 per cent; \$100 up, 20 per cent.

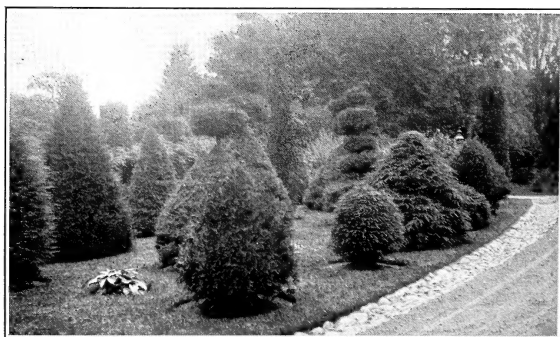

A Young Block of White Pine (*Pinus Strobus*)

Evergreen Trees

All our Evergreen Trees have been transplanted several times, so that they have developed ample fibrous roots to transfer in safety from our grounds to yours. We take great care, also, to burlap the roots in a large ball of earth, except cheap and small sizes. Among many species we offer some of the cheaper sorts for screens and hedges; also choice specimens of the more rare and beautiful Colorado Blue Spruce, Oriental Spruce, Nordmann's Fir, White Pine, Mugho Pine, Swiss Stone Pine, Japanese Umbrella Pine, Arborvitae, Hemlock, Retinosporas, Junipers, etc. We invite correspondence with those desiring to plant Evergreen Trees, and offer information as to proper time and method of handling the different species. Special estimates for large numbers. See General Catalogue.

"There is no question but that every year I get from you the very best that ever comes to my hands. The roots are great, big and strong ones, and it does my heart good to see them in such splendid shape."

"I think I have received all the trees ordered from you, so if you will send me a bill for the whole amount, crediting me with the check sent you on March 19th, for \$880, I will at once send you a check for the balance due."

John Duncan, writing of the evergreens in Arnold Arboretum, Boston, says, of *Abies Concolor*: "There are a number of individuals of it that are just superb. I do not know of any conifer that can surpass it in beauty unless it be a finely developed Hemlock Spruce."

LOMBARDY POPLAR PYRAMIDAL BIRCH
Added to the formal effect the white bark of the Birch makes it very attractive.

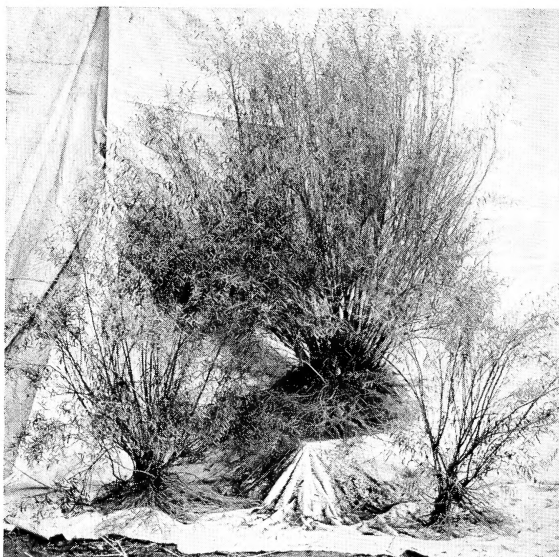

Norway Maples "Heeled in."

These trees have been planted wide apart which has given room for the development of good tops and straight stocky trunks.

The roots are immense masses of fibers which insure their rapid growth.

	Each	10
Maple, Norway. 6 to 8 ft.	\$0 75	\$6 00
8 to 10 ft.	1 00	9 00
1½ to 1½ in. caliper.	1 25	11 00

THREE SIZES OF SPIREA THUNBERGII

Illustrating the development of both roots and tops by successive transplanting of all shrubs. We have from two to four sizes of most all varieties of flowering shrubs listed below. If the large plant above had not been several times transplanted, the best part of the roots would have been left in the ground, since they would have been several feet from the plant.

Flowering Shrubs

	Each	10

CLEMATIS

PLANS FOR CITY PARKS

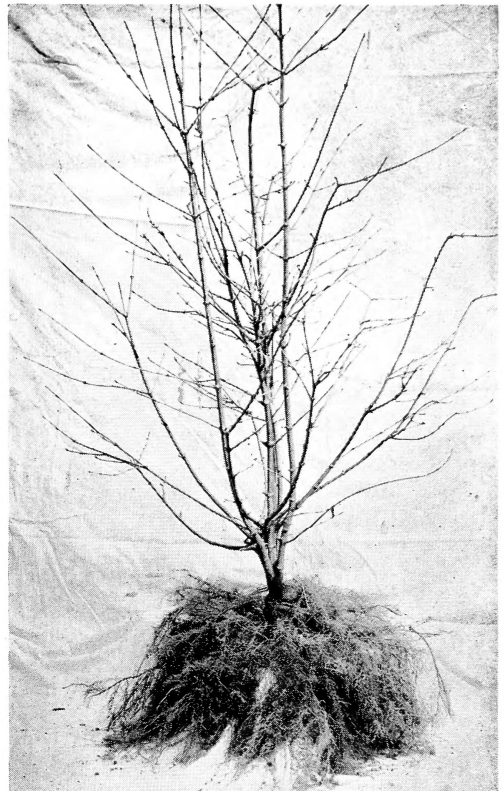

"Personally, I was very much pleased with the plan which you sent and will say that they have given much satisfaction to those interested in them. On this account, I have taken pleasure in recommending your house to many."

"My order arrived Friday in excellent condition. Trees and shrubs exceeded my expectations. Having such fine roots, they surely cannot do otherwise than grow."

"I enclose my check on payment of bill. The trees and plants arrived in good shape and I am sorry I did not give you my whole order."

"I reached my office from the Adirondacks on Saturday. The plants and shrubs came in fine shape being most admirably packed."

☐ Note the liberal discounts offered on page 8 and bear in mind also that we make no charge for boxing and packing.

Planting Plans and Our Superior Stock

The Grounds Beautiful requires proper care and cultivation, but equally depends upon intelligent selection of varieties and harmonious design in planting. Neglect of any of these points will give a landscape lacking in some element of beauty. We

The Most Difficult Planting is that near the Dwelling.

make a specialty of designs for suburban grounds and have furnished plans for many of the most beautiful places near New York City. Planting designs we supply to distant customers uniformly give complete satisfaction,—they are practical and easy of application.

We not only furnish first-class material at the proper season for the best results, but we are prepared to renovate old estates, make planting plans for new ones, and in many other ways assist our patrons to the highest development of their grounds. To those in the vicinity of New York we make a preliminary visit without charge. Those at a distance should send us a sketch of their grounds with dimensions, points of the compass, location of buildings, trees, etc.

From these data we make a planting plan, drawn to scale, at a moderate cost. By so doing, our clients would save expense and disappointment, because, without expert advice, planters are apt to select material for planting which is either not hardy or will not thrive in a given location. Moreover, those not familiar with the ultimate sizes of trees, shrubs, etc., are apt to use two or three times the number required for the best effect. Many buyers find our superb catalogue sufficient to help them in selecting material, for we have spared no pains to make it as helpful as possible, and are supplementing it by correspondence, answering inquiries and suggesting proper selections.

To those contemplating a large planting, we wish to call attention to the fact that we have filled some of the largest orders known among nurserymen. In the last six years we have supplied one large estate in this vicinity with over 31,000 trees, besides shrubs, bulbs, etc. The fact that this number of trees has been largely evergreens which are more difficult to transplant than deciduous trees, is pretty good proof that our stock bears transplanting well.

From one of the most noted rosarians in the country we have received an order for as many as \$1,200 worth of rose plants at one time.

We completed last year, a job of grading, road-building, seeding and planting to the amount of over six thousand dollars, to the entire satisfaction of our client who has given us permission to refer to him.

The horticultural papers credit us with filling the largest order for trees ever given by one man.

The fact that this man lives in Tarrytown and that not one of the 10,200 trees has failed, proves not only that our best customers are those who know us best, but also that our trees grow.

S. G. Harris, M. S., Tarrytown, N. Y.
